

SAFETY BAY PETANQUE CLUB INC

HEAT POLICY

The rules in this policy will only apply to normal match days at the club.

Should the temperature exceed 36 degrees either before start of play or during any game, then the game will be stopped.

The temperature will be checked each 10-minute period until the temperature drops or a period of 30 minutes has elapsed. If the temperature does not drop in this time, then play can either be postponed (by general assent) or called off.

All decisions and readings and the placement of the thermometer will be made by the Match Committee member in charge of the days play. It will also be the Match Committee's decision to shorten games to 30 minutes if this is judged to be in the interest of the members on the day.

Each member should make their own decision based on their own health and comfort requirements.
